1. Combine vodka, watermelon and lime in a cocktail shaker. Muddle all ingredients well. Add simple syrup, fill with ice, cover and shake until ice cold.
2. Rim the glasses with a cut lime and dip in the lime rim mixture.
3. Fill the glasses with ice and pour the ingredients from the shaker into the glasses.
4. Garnish with a watermelon slice, a cucumber slice and a mint sprig.

Notes

No Cucumber Vodka? No problem.

Simply add a couple of slices to cucumber to the watermelon and lime and muddle them together; use regular vodka of your choosing. Enjoy!
