

Lara's Cookie Dough

Combine all ingredients (except the chips) in your food processor until it reaches a cookie dough consistency. If it is too wet, add a little vanilla protein powder or more PB2. Fold in the chips. Divide into a few snack size baggies and store in the fridge for later.

Looks like cookie dough. Smells like cookie dough. Tastes like cookie dough...

The next time a late night sweet tooth strikes, be prepared with a figure-savey alternative.

This little treat is a **BFF** (Boutique Fitness Fav!) Enjoy!
